INVESTIGATOR'S INTRODUCTION AND STATEMENT OF INFORMED CONSENT  My name is and I have come from Centre for the Study of Developing Societies (also give your University's reference), a social science research organization in Delhi. We are conducting a national survey on the opinion of people on politics and interviewing thousands of people across the country. We are doing a research on voting behaviour of the electorate, how the country is governed, and how the economy is managed.  Every person over the age of 18 has an equal chance of being included in this study. You have been selected by chance. There is no risk and also no benefit in participating in this survey. But if you answer our questions, you will help us in understanding how the public feels about issues facing the country today.  This survey is an independent study and is not linked to any political party or government agency. Whatever information you provide will be kept strictly confidential. The findings of this survey will be used for television programmes and writing articles in newspapers.  Participation in this survey is voluntary and it is entierly up to you to answer or not answer any question that I ask. We hope that you will take part in this survey since your participation is important. It usually takes 30 to 35 minutes to complete this interview. Please spare some time for the interview and help me in successfully completing the survey.
